

# Olympic Notice to Students

Please note the following changes to our business operations during the month of February:

Trauma Tech's office, 208-1110 Hamilton Street Vancouver, BC, will be closed from February 10<sup>th</sup> to February 26<sup>th</sup>. As we are located in the heart of Yaletown and many venues and activities are at our doorstep we are expecting some accessibility issues during the games. It is for this reason we have decided to be open for business via phone and email, this includes course registrations, equipment sales and corporate group training. We encourage students registered in any of our early March courses to pick up their study materials prior to February 10<sup>th</sup>. In the event that this is not possible our office will re-open on Saturday February 27<sup>th</sup> from 8:30am to 4:30pm and books will be available for pick-up at this time.

How to contact us:

1) Via Phone

You can contact us at our regular business number 604-662-7740. If you receive our voicemail please leave your name, company name (if applicable), contact number and /or email and the nature of your inquiry and we will call / email you back as soon as possible.

2) Via Email

For course information and registration or corporate client group training inquires please email our General Manager, Chrissy Becket, at [trauma@traumatech.com](mailto:trauma@traumatech.com) .

For first aid equipment inquiries and sales, EMR licensing to OFA 3, Paramedic in Industry or WorkSafe BC regulation information and / or general inquiries please email our Program Developer, Paula Adam, at [paula@traumatech.com](mailto:paula@traumatech.com) .

For Occupational Health and Safety training and consultation information please contact our Director, Paul Stevenson, at [paul@traumatech.com](mailto:paul@traumatech.com) .

We appreciate your patience and understanding during this exciting and busy time and it is our intention to continue to provide our students / clients with the excellent level of customer service they have come to expect.

Thank-you,

Trauma Tech Staff
